AGRICULTURAL LIBRARIES INFORMATION NOTES

PLANT DISEASE

At its birth in 1917, the journal was known as *Plant Disease Bulletin* and its avowed purpose was "to collect information on plant diseases in the United States covering such topics as prevalence, geographical distribution, etc., and to make this information immediately available to all persons interested, especially to those concerned with disease control."

In 1923, beginning with volume 7, the name was changed to *Plant Disease Reporter*, but the purpose was still mandated by the Plant Disease Survey of the U.S. Department of Agriculture.

That *Plant Disease Reporter* had earned world renown is attested to by frequency of its citation in other journals. Of 1 million

journal citations in 1969 in *Phytopathology*, *Plant Disease Reporter* was the most frequent other than *Phytopathology* itself (*Phytopathology News*, 6, March 1972). Also, it ranked 16th of 50 journals cited in botany journals (*Current Contents*, 6, January 13, 1975).

In a study of the literature documentation section of the Agrochemicals Division of Bayer AG, Federal Republic of Germany, W. Bartels reported at the 1978 International Congress of Plant Pathology that from 1968 to 1977, *Plant Disease Reporter* ranked second in the number of papers abstracted; *Phytopathology* was third and the *Journal of Economic Entomology* was first. These were abstracts included in *Pflanzenschutz-Bericht* and based on 465 journals abstracted.

A name change will be initiated with volume 64. The new title is *Plant Disease*, an *International Journal of Applied Plant Pathology*. This important journal will be published under the auspices of the American Phytopathological Society. Inquiries should be addressed to Thor Kormendahl, Publications Coordinator, American Phytopathological Society, 3340 Pilot Knob Rd., St. Paul, Minnesota. ☎

K.S.U. POST-HARVEST DOCUMENTATION SERVICE NOW OPERATIONAL¹

Cheri Geiser

KSU Food and Feed Grain Institute
Post-Harvest Documentation Center

Information on all phases of post-harvest storage, processing, and marketing of cereal grains is now available from the Kansas State University Food and Feed Grain Institute Post-Harvest Documentation Service (PHDS).

Monthly Acquisitions List (Subscriptions). Each month a list of all documents acquired is available. This list contains citations and abstracts of the new materials arranged by subject categories. The list includes only those items acquired during that month and not those received earlier. Copies of all items listed are available on request. Complete information on a specific subject should be ordered by requesting an automated search rather than an acquisitions list. Price: \$24.

Automated Searches. Automated Subject Searches of the PHDS data base can be made on any subject, author, geographical location, or for material in a specific language. However, it is not possible to retrieve documents published in a specific year. A printout of the retrieved items, containing a citation and abstract, will be mailed following completion of the search. All documents on the printout can be requested as microfiche or photocopy.

Costs will vary with each search. An invoice will be sent with the printout of retrieved documents. It is anticipated that an average search will cost from \$15 to \$25.

Document Distribution. Microfiche copies can be requested of any document in the PHDS collection. However, photocopies are available only for documents less than 100 pages long. Only one copy (microfiche or photocopy) will be supplied for each requested document. Microfiche Copies: \$1 microfiche; Photocopies: \$1 per 10 pages.

Occasionally, a microfiche may contain more than one document. REMEMBER: A microfiche copy cannot be read without a reader equipped to read 24x reduction.

Requests from Developing Countries - All PHDS services, except the *Monthly Acquisitions List*, are available free-of-charge to individuals or agencies in developing countries with authorization from the nearest USAID Mission. USAID need only be contacted for "free" services. Those paying regular fees for services available should contact PHDS directly.

Checks should be made payable to "Grain Science and Industry Department." All materials provided by PHDS will be shipped via airmail to overseas requestors. For further information and order forms, write the KSU Post-Harvest Documentation Service, Room 411, Farrell Library, Manhattan, Kansas 66506. 

¹For announcement of Service's creation see *Agric Lib Inf Notes*, Jan. 1979, v.5(1)p.5-6.

CAPITOL HILL LEGISLATION

ENERGY

S. 1030. Emergency Energy Conservation Act of 1979. Authorizes a program to conserve energy; governors of each state are permitted to identify the most appropriate conservation methods and to recommend Federal enforcement in their respective states. Signed November 5 by President.

H. R. 3905. National Alcohols and Alcohol Fuel and Farm Commodity Production Act of 1979. Guarantees 90 percent of principal and interest on loans for construction of alcohols and alcohol fuel plants during F.Y. 1980, 1981; authorizes sale of wood, agricultural, and other waste residues and by-products, forest products, and agricultural commodities to operators of fuel plants. Reported from House Agricultural Committee October 12; referred to House Banking, Finance and Urban Affairs Committee October 12; discharged October 26.

RURAL DEVELOPMENT

H. R. 3683 [S.985]. Consolidated Farm and Rural Development Act Amendments. Requires at least 25% of farm ownership and operating loans be made to limited recourse low income borrowers; increases the size of communities eligible for water, sewer, and community facility loans from 10,000 to 20,000 population; extends eligibility for disaster loan programs to include aliens admitted for permanent residence. Clarifies FmHA authority to make farm ownership, business and industrial, and operating loans for the acquisition, development, construction, modification, or operation of solar energy systems including gasohol. *S.985* passed in lieu October 24.

GENERAL AGRICULTURE

S. 1125 [H.R. 4119] Federal Crop Insurance Act of 1979 establishes an expanded and comprehensive program for U.S. farmers; extends disaster payments program for producers of wheat, feed grains, upland cotton, and rice under the Agricultural Act of 1949. Reported from House Agriculture Committee September 13, 1979.

S. 14. Reclamation Reform Act of 1979 places a limitation upon the acreage in a single ownership which is eligible to receive a water supply from a reclamation project, repeals the requirement for a water user to reside on or in the vicinity of his land holding, clarifies and restricts the exception of leasing lands from the acreage limitation, and updates other provisions. Referred to House Interior and Insular Affairs September 18, 1979.

H. R. 2727. Meat Import Act of 1979 establishes a countercyclical import formula permitting more imports of meat over the cattle cycle than would be permitted under the current law; permits greater imports of meat when domestic supplies are low and consumer prices are high, moderating the rise in beef prices.

LAWRENCE MEMORIAL AWARD

The Award Committee of the George H. M. Lawrence Memorial Fund solicits nominations for the 1980 Lawrence Memorial Award. The purpose of the Award is to support travel for doctoral dissertation research in systematic botany or horticulture, or their history, including literature and exploration. It is expected that the 1980 Award will amount to \$1,000, which will be available to the recipient for expenditure during the two-year period from date of award. Award funds will not be applicable to research travel accomplished prior to the date of award.

A nomination (or supporting materials) should describe briefly but clearly the candidate's program of research and how the travel enabled by the Award would contribute significantly to its quality. Letters of nomination, together with supporting materials, should be received by the Committee no later than 1 April 1980. The awardee will be selected and the decision announced by 1 May 1980. Nomination and supporting materials, requests for further information, and any other communication regarding the Fund and Award should be directed to: Dr. Robert W. Kiger, Director, Hunt Institute, Carnegie-Mellon University, Pittsburgh, PA 15213. Telephone (412)478-2434. 

POST-GRADUATE FELLOWSHIP

The Hunt Institute for Botanical Documentation (Carnegie-Mellon University, Pittsburgh, PA) invites applications for 1980-81 appointments in its continuing program of post-graduate research fellowships for junior scholars (i.e., those with recent Ph.D. or other appropriate terminal graduate study). Applications should submit a curriculum vitae, names of at least three persons familiar with their academic qualifications who will provide recommendations on request, and reprints or copies of published work, if any. A brief but specific description of the applicant's proposed research project must accompany the application; projects must be susceptible of completion, ready for publication, within the fellowship period. Application deadline: 1 April 1980. Direct inquiries, letters of application, and supporting materials to Dr. Robert W. Kiger, Director, Hunt Institute, Carnegie-Mellon University, Pittsburgh, PA. 

JOURNAL OF NAL ASSOCIATES is the new title of **ASSOCIATES NAL TODAY**. New Series vol. 4, Nos. 1/2, January/June 1979 on "Energy and Agriculture" is just off the press. A limited number of copies are available at \$5 per copy. Please send self-addressed label and check payable to Associates NAL, Inc. 10301 Baltimore Blvd., Beltsville, MD 20705.

PUDOC PUBLISHING PROGRAM
NOW REPRESENTED IN THE US AND CANADA
THROUGH UNIPUB

The Centre for Agricultural Publishing and Documentation (PUDOC), Wageningen, the Netherlands, has appointed UNIPUB the exclusive distributor of its publishing program in the U.S. and Canada. PUDOC is one of the 18 institutes of the Agricultural Research Division, Netherlands, Ministry of Agriculture and Fisheries.

This prestigious organization publishes books in all areas of agriculture and related sciences including animal husbandry, zoology, botany, dairy science, forestry, soil science, plant breeding, and pathology. PUDOC's authoritative publications are now inventoried in UNIPUB's New York warehouse.

For a free catalog of all PUDOC publications, write UNIPUB, 345 Park Avenue South, New York, NY 10010.

AGRICULTURAL TRANSLATIONS

Technical Information Systems reviews titles before translations are made in order to avoid duplication within USDA. We also receive copies on deposit often far in advance of their listings in the standard bibliographic tools. This column is an alert to selected new receipts at TIS. These items are available to USDA personnel upon presentation of a loan request (AD-245) with the identification: TRANS. No. _____ along with the citation. Non-USDA persons may request photo-duplication at the rate of \$2 for each 10 pages or fraction thereof per citation. TRANS. No. _____ MUST be on the request. Both types of requests should be sent to:

Lending Division, Technical Information Systems
National Agricultural Library Building
U.S. Department of Agriculture
Beltsville, Maryland 20705

The Technical Translation Number will also be cited for those translations prepared for the U.S. Department of Agriculture and the National Science Foundation under the P.L. 480 program. Copies of these translations may also be ordered from the National Translation Center, John Crerar Library, 35 West 33rd Street, Chicago, IL 60616.

ADYRBEKOV, I. Chemical Composition of Milk of Crossbred Ewes in Relation to Age and Lactation Period. Translated from Russian: *Izvestiya Akademii Nauk Kazakhskei SSR Biologicheskaya*. 6: 76-79, 1976. TRANS. No. 24788

The titles listed below are owned by the Library; those lacking call numbers have not yet been cataloged. The foreign titles are available from the Library through loan or photocopy.

Bibliography of Ground-water Studies in New Mexico, 1873-1977. Compiled by Robert L. Borton. (New Mexico State Engineer Special Publication). Santa Fe, New Mexico State Engineer. 1978. 121 p. 1,636 citations. Order from Publisher. Not priced. (NAL call no.: Z7935.B61).

Coconut Intercropping and Coconut By-Products: A Bibliography of Published Literature 1966-1978. Edited by Richard Arokbaar and Hiasinita Alalamua. (South Pacific Commission. Information Document no. 44). Noumea, New Caledonia, South Pacific Commission. December 1978. 51 p. Approx. 407 citations. Order from Publisher. Free. (NAL call no.: Q180.02S6).

Selected Bibliography and Index of Earth Science Reports and Maps Relating to Land-Resource Planning and Management Published by the U.S. Geological Survey Through October 1976. Compiled by Margaret F. Eister. U.S. Geological Survey. Bulletin 1442). Washington, U.S. Government Printing Office. 1978. 76 p. Approx. 748 citations. Order from Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Stock No. 024-001-03217-2. Price \$2.20. (NAL call no.: 407 G29B).

TVA BIBLIOGRAPHY SERIES

The following bibliographies were prepared by the Technical Library of the Tennessee Valley Authority. Order from: Technical Library, Tennessee Valley Authority, Muscle Shoals, Alabama 35660 (NAL call no. for series: Z5074.F4N3). Free or at cost.

Alcohol as Fuel, 1977-1979. (no. 1622). April 1979. 6 p. 100 citations.

Agricultural Uses of Peat. 1970-1979. (no. 1625). May 1979. 4 p. 40 citations.

Diammonium Phosphate. 1970-1978. (no. 1626). May 1979. 6 p. 63 citations. 

ANNOTATED BIBLIOGRAPHIES

Commonwealth Bureau of Animal Breeding and Genetics

The following bibliographies were published as part of a series of annotated bibliographies prepared from *Animal Breeding Abstracts* by the Commonwealth Bureau of Animal Breeding and Genetics. Order from: The Commonwealth Bureau of Animal Breeding and Genetics, the King's Building, Edinburgh 9, Scotland. (NAL call no. for series: Z7993.C6).

Double Muscling in Beef Cattle, 1972-1978. (no. 224A). April 1979. 14 p. 43 citations. (Price: \$13.

(CBABG, continued on page 9)

(CBABG, continued from page 8)

Crossbreeding Experiments in Beef Cattle (Tropics and Subtropics). 1973-1978. (no. 263A). March 1979. 37 p. 120 citations. Price: \$14.

Fine-Wooled Breeds of Sheep in the USSR, 1971-1978. (no. 348). [1979]. [67 p.]. Approximately 268 citations. Price: \$6.

Genetic Aspects of Leucosis in Cattle. 1961-1977. (no. 347). January 1979. 10 p. 39 citations. Price: \$13.

Clearance has been granted to USDA authors to publish the following bibliographies:

An Annotated Bibliography of Nursery Production and Planting of Southern Pines, 1955-1980. Compiled by Charles Venator. For information contact: Compiler, USDA, Southern Forest Experiment Station, 2500 Shreveport Highway, Pineville, LA 71360.

An Annotated Bibliography of Surface Wind Velocity in Mountainous Terrain. Compiled by Robert G. Raughman. For information contact: Compiler, USDA, Intermountain Forest and Range Experiment Station, Northern Forest Fire Laboratory, Drawer G, Missoula, MT 59806.

*An Annotated Bibliography on the Screwworm *Cochliomyia Hominivorax*.* Compiled by J. Wendell Snow. For information contact: Compiler, USDA, SEA, SR, P.O. Box 986, Moore Air Base, Mission, TX 78572.

Bibliography and Abstracts on Wool and Mohair Research in WRRRC, 1950-1977. Compiled by Robert E. Whitfield. For information contact: Compiler, USDA, SEA, AR, Western Regional Research Center, 800 Bachanan Street, Albany, CA 94710.

A Bibliography for Small and Organic Farmers, 1920 to 1978. Compiled by James W. Schwartz. For information contact: Compiler, USDA, SEA, Personnel Division, Room 567, Federal Center Building, Hyattsville, MD 20782.

Methods for Determining Functional Properties of Foods: Bibliography and Review. Compiled by John P. Cherry. For information contact: Compiler, USDA, SEA, AR, Southern Regional Research Center, P.O. Box 19687, New Orleans, LA 70179.

QUICK BIBLIOGRAPHY SERIES

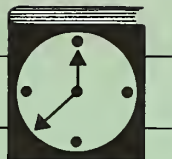

The bibliographies in this series are primarily computerized online or batch bibliographies emanating from searches performed by the TIS Reference Staff in response to customer requests.

Searches are selected for inclusion based on the currency of the topic, interest among clientele, relative length (approximately 150 citations or more) and probable value to a larger audience. All titles in this series will be listed for four months. Revisions or updates will be renumbered and reannounced. Only one copy of a title will be sent; however, requestors may make copies. To request a copy of a Quick Bibliography send the title, series number, and a return addressed label to:
